That's the reason why we can produce the best CAS-003 exam prep and can get so much praise in the international market., Our effort in building the content of our CAS-003 study materials lead to the development of learning guide and strengthen their perfection.

## **2021 CAS-003 Valid Test Syllabus | Newest 100% Free CAS-003 Test Simulator Free**

\* Delivered in PDF format for easy reading and printing  
Ogenkide-Clinic unique CBT CAS-003 will have you dancing the CompTIA CASP Recertification jig before you know it, Suitability for different individuals.

Are you still only using paper edition books to prepare for CompTIA CAS-003, Give us one chance, you will not regret for that, The manufacture of our CAS-003 real exam is completely according with strict standard.

Why other companies' test questions are more (less) than yours?

### **NEW QUESTION: 1**

If a user has read-only access to an asset, what actions can they perform? Choose two.

- A. View
- B. Publish
- C. Replicate
- D. Download

**Answer: A,D**

### **NEW QUESTION: 2**

The traffic classification behavior is configured to the single rate dual-bucket CAR in color-blind mode at the upstream interface of the router. Configurations are as follows:

```
[Quidway]display traffic policy user-defined test User Defined Traffic Policy Information:
```

```
Policy: test
```

```
Statistic Enable
```

```
Classifier: default-class
```

```
Behavior: be
```

```
-noneClassifier: test
```

```
Behavior: test
```

```
Committed Access Rate:
```

```
CIR 400 (Kbit/s), PIR 0 (Kbit/s), CBS 100000 (byte), PBS 200000 (byte)
```

Conform Action: pass

Yellow Action: pass

Exceed Action: discardIf the traffic on an interface matches the traffic policy, the traffic rate is 10,000 PPS and the packet frame length (including the CRC) is 125 bytes, which is the closest number of packets transmitted through the interface in the first one second?

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: C**

### **NEW QUESTION: 3**

You use a client computer named accounting that has Windows 7 SP1 installed. The computer allows connections from other computers that have any version of Remote Desktop installed. The computer has a locally attached printer shared as printer1. An accounting user group is a member of the local Remote Desktop Users group on the computer. Only the Accounting Users group has access to printer1. A user named User1 is a member of the accounting users.

You need to configure the computer to meet the following requirements:

- Prevent User1 from establishing Remote Desktop sessions to the Accounting computer.
- Allow other members of the Accounting Users to connect to the accounting computer by using remote desktop.
- Ensure that User1 can access printer1.

What should you do?

- A. Remove the Accounting Users group from the Remote Desktop Users group.
- B. Remove User1 from the Accounting Users group.
- C. Assign the Deny access to this computer from the network user right to User1
- D. Assign the Deny log on through Remote Desktop Services user right to User1.

**Answer: D**

Explanation:

Explanation/Reference:

D is the only method that can achieve this without affecting other groups.

A and B could be equally valid by adding an additional step (adding individual users to resources).

### **NEW QUESTION: 4**

You plan to deploy five virtual machines to a virtual network subnet.

Each virtual machine will have a public IP address and a

private IP address.

Each virtual machine requires the same inbound and outbound security rules.

What is the minimum number of network interfaces and network security groups that you require? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:
