- D. Use HP SUM CLI online from within the SL operating system and execute the commands by using multicast

Answer: B

NEW QUESTION: 2

- A. Option D
- B. Option C
- C. Option A
- D. Option B

Answer: A

Explanation:

Amazon CloudWatch alarm watches a single metric over a time period that the user specifies and performs one or more actions based on the value of the metric relative to a given threshold over a number of time periods. The user can setup an action which terminates the instances when their CPU utilization is below a certain threshold for a certain period of time. The EC2 action can either terminate or stop the instance as part of the EC2 action.

NEW QUESTION: 3

Which of the following statements is NOT correct about the Kaizen philosophy?

- A. Individual improvements identified by the work force will be small rather than far-reaching.
- B. The organizations should always seek perfection. Since perfection is never achieved, there must always be scope for improving on the current methods.
- C. The search for perfection should be ingrained into the culture and mindset of all employees.
- D. The organizations should always seek perfection in some

departments of the organization only as perfection cannot be achieved in all departments.

Answer: D
