NEW QUESTION: 2
DRAG DROP
Your company plans to deploy a remote access solution to meet the following requirements:
- Ensure that client computers that are connected to the Internet can be managed remotely without requiring that the user log on. - Ensure that client computers that run Windows Vista or earlier can connect remotely. - Ensure that non-domain-joined computers can connect remotely by using TCP port 443.
You need to identify which remote access solutions meet the requirements.
Which solutions should you identify?
To answer, drag the appropriate solution to the correct requirement in the answer area. Each solution may be used once, more than once, or not at all. Additionally, you may need to drag the split bar between panes or scroll to view content.

Answer:
