### NEW QUESTION: 4

When a departmental system continues to be out of compliance with an information security policy's password strength requirements, the BEST action to undertake is to:

- A. conduct an impact analysis to quantify the risks.
- B. isolate the system from the rest of the network.
- C. submit the issue to the steering committee.
- D. request a risk acceptance from senior management.

**Answer: A**

Explanation:

## Explanation

An impact analysis is warranted to determine whether a risk acceptance should be granted and to demonstrate to the department the danger of deviating from the established policy. Isolating the system would not support the needs of the business. Any waiver should be granted only after performing an impact analysis.
