And our H13-723-ENU learning prep can suit you most in this need for you will get the according certification as well as the latest information, Our H13-723-ENU test materials boost three versions and they include the PDF version, PC version and the APP online version.

Recommended for people with busy schedules, If you are interested in H13-723-ENU exams questions and answers we DumpExams will be your best choice, The Ogenkide-Clinic exam questions for H13-723-ENU HCIP-Big Data Developer dumps is mainly based on three accessible formats, PDF and VCEE and online test.

**NEW QUESTION: 1**

All compute Engine instances in your VPC should be able to connect to an Active Directory server on specific ports. Any other traffic emerging from your instances is not allowed. You want to enforce this using VPC firewall rules. How should you configure the firewall rules?

How should you configure the firewall rules?

- A. Create an egress rule with priority 100 to deny all traffic for all instances. Create another egress rule with priority 1000 to allow the Active Directory traffic for all instances.
- B. Create an egress rule with priority 1000 to deny all traffic for all instances. Create another egress rule with priority 100 to allow the Active Directory traffic for all instances.
- C. Create an egress rule with priority 100 to allow the Active Directory traffic. Rely on the implied deny egress rule with priority 1000 to block all traffic for all instances.
- D. Create an egress rule with priority 1000 to allow the Active Directory traffic. Rely on the implied deny egress rule with priority 100 to block all traffic for all instances.

**Answer: B**

### NEW QUESTION: 2

The following SAS program is submitted:

```
